

Master's in Environmental Studies in Conservation Practice

TENTATIVE COURSE PLAN

Year 1	Semester 1	
	Course	Credits
	Ecology	3
	Sociology for Conservation and Sustainability	3
	Environmental Science	3
	Environmental Economics	3
	Basic Math Skills	1
	Research Methods I: Qualitative Methods	2
	Research Methods II: Quantitative Methods	2
	RS-GIS	3
	Conservation Issues and Concerns	1
	Semester 2	
	Course	Credits
	Conservation Policy and Governance	2
	Conservation Ethics	2
	Political Ecology	2
	Socio-ecological Systems	2
	Impact Assessment	2
	Communicating Science	3
	Food Systems	2
Water Resources	2	
Biodiversity	2	
Ecosystem Services	2	

Year 2	Semester 3	
	Course	Credits
	Climate change	2
	Landscape Restoration	2
	Approaches to Conservation	2
	Natural History	2
	Conservation Technologies	2
	Conservation Psychology	2
	Cultural diversity and TEK	2
	Decision Science	2
	Elective Courses: Choose for 4 credits	
	Project Cycle Management	2
	Adaptive Learning	2
	Effective Advocacy	2
	Basic English	1
	Ethnobotany	2
	Transdisciplinarity and Collective Knowledge Frameworks	2
	Landscaping with Medicinal Plants and Nursery Techniques	2
	Semester 4	
	Course	Credits
MSc Thesis Stream	18	
MSc Internship Stream	18	
Total Course Credits		
80
