

Phd Supervisors @ ATREE

Sl. No.	Faculty	Broad Research Interests
1.	Dr. Vinay Sankar	Political Ecology of Water, Environmental Justice, Local Democracy, Commons and commodification, and heterodox/pluralist economics
2.	Dr. Seshadri K S	Canopy ecology, Urbanization, Behavioural Ecology, Human-wildlife conflicts, and Biodiversity Conservation
3.	Dr. G Ravikanth	Agrobiodiversity, population genetics, and invasive species. A major focus is on Conservation Genetics and molecular ecology, assessing spatial genetic patterns and genetic impacts of habitat degradation, harvesting, and fragmentation.
4.	Dr. Saloni Bhatia	Biocultural approaches to conservation, multispecies coexistence, other-than-human geography, intersectional conservation, pastoralism, ideally in the Transhimalaya (Ladakh) and ideal applicant would be from the region
5.	Dr. Sachin Tiwale	Water governance, urban water supply, rural drinking water, irrigation management, soil and water conservation, and analysing water infrastructure and engineering practices using STS (science, technology, and society) approach.
6.	Dr. Aravind NA	Freshwater ecology and conservation, specifically on taxa such as land and freshwater molluscs, amphibians and freshwater fish ecology, phylogeny, biogeography and conservation.
7.	Dr. Siddappa Setty	Community and conservation, sustainable use of NTFP, and agroforestry and shifting cultivation
8.	Dr. Milind Bunyan	Invasive Alien Species, Conservation Technologies, RS-GIS, Restoration Ecology, and Forest Ecology.
